Midterm Proposal

Atharv Gopaluni

Concept

I want to make a website to showcase my media "company." I have both current projects and upcoming projects that I want to showcase and explain, alongside explaining my goals and messages. I also want an about me, linking to my own personal website.

Inspiration

https://a24films.com

https://www.warnerbros.com/collections

My goal is to create a website that invokes this idea of media, immediately portraying that.

A24 home page

A24 menu nav bar
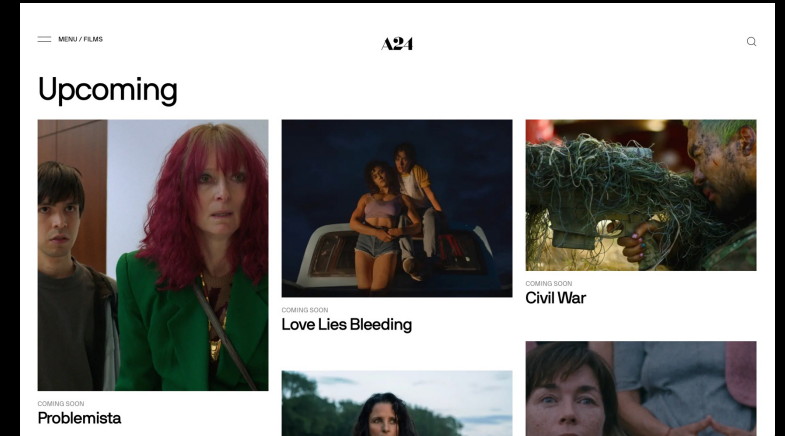

A24 films page
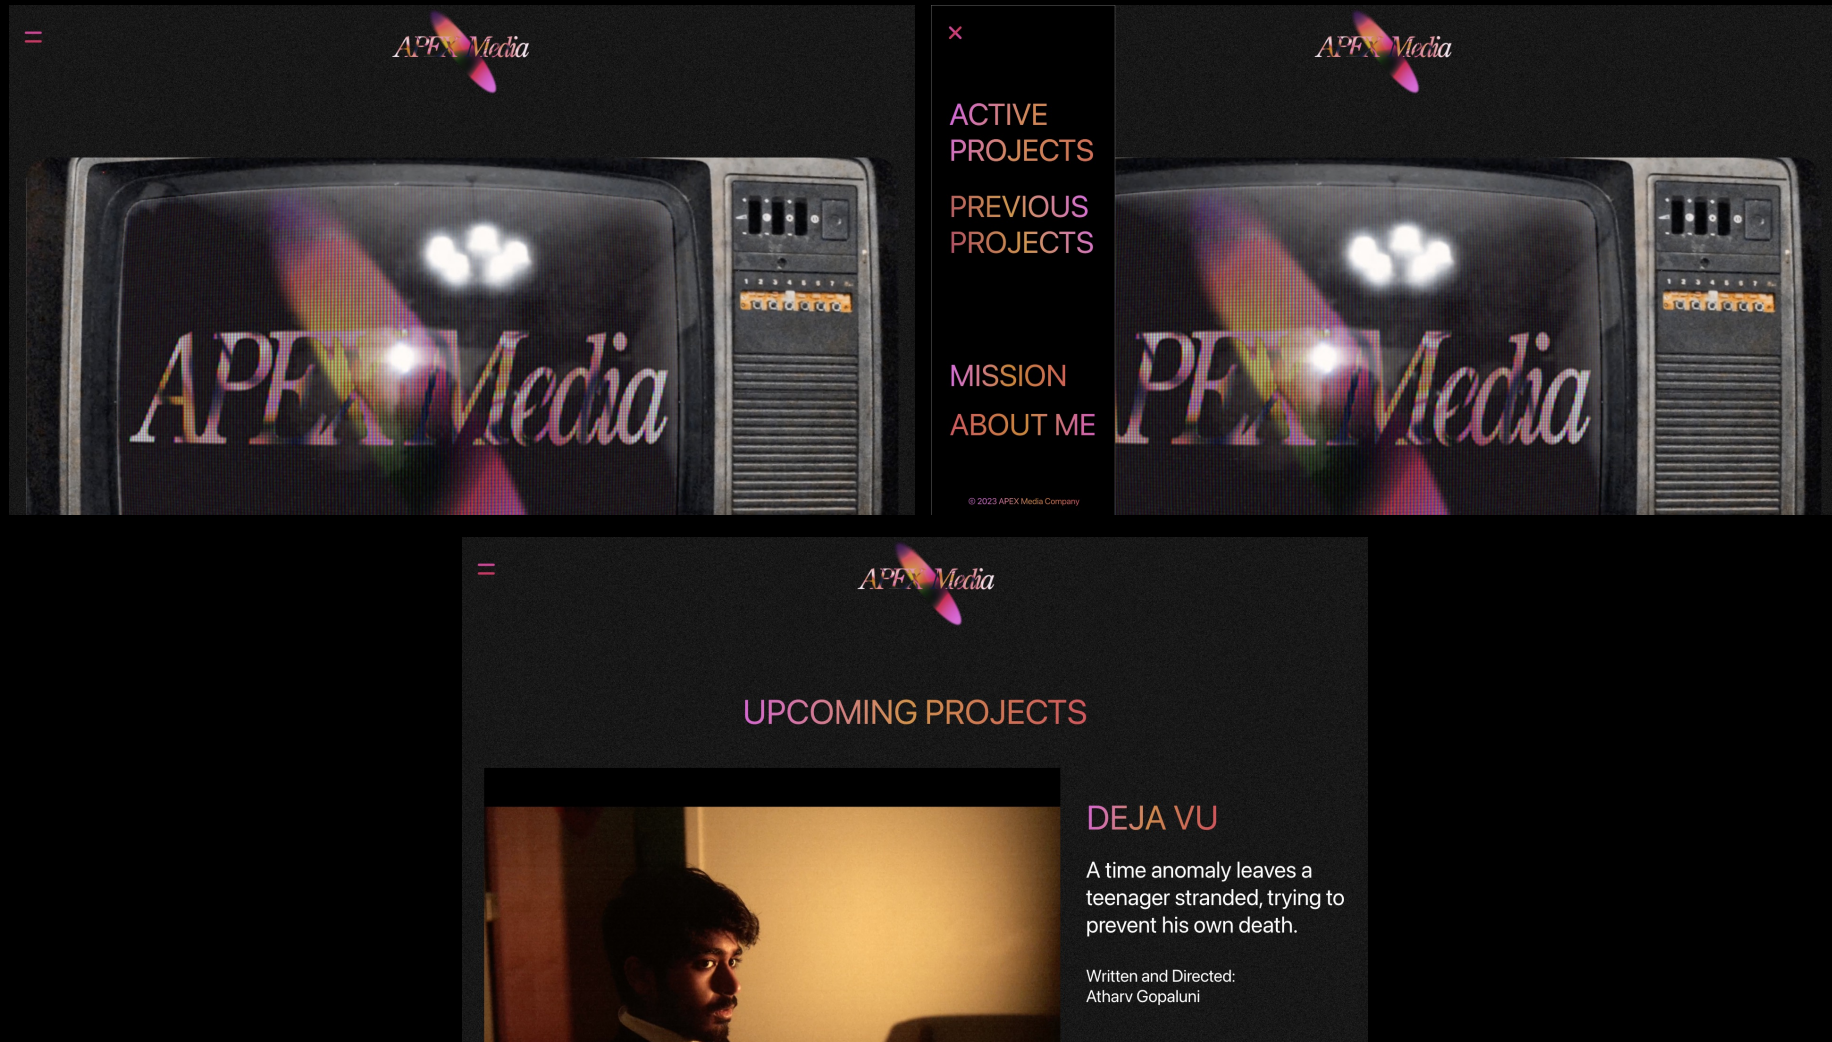

Schematics/Wireframing

CSS/HTML that I will utilize

- Text styles
- Page navigation
- Link navigation
- Flex box
- Image editing/scaling
- Headings
- Page breakdowns
- Navbar creation

- Dropdowns
- Text input (for possible search feature, if needed)
- Video scaling (extension of media like images)
- Responsiveness for website
- Background styling

Future/Required skills

- Further skills in animation for scrolling
- Working with gradients
- Further exploration of advanced navbars
